## PROJECTS

### FRESH n JUICY: | *React JS and Redux , Node JS , Express JS , MongoDB*

[Website link](#)

- Created an **e-commerce** application for fruit businesses, utilizing the MERN (MongoDB, Express.js, React, Node.js) stack. The application facilitated the seamless selling and management of fruits and orders.
- Developed a simple registration system, allowing customers to easily create accounts on the website and **place orders online**, enhancing the convenience and accessibility of the shopping experience.
- Implemented an **order management system**, allowing the store owner to view and track incoming orders and as well as update order statuses.

### PORTFOLIO WEBSITE: | *HTML , CSS , Javascript*

[Website link](#)

- Developed and designed a portfolio website to showcase your work and let others know about yourself.
- It's like an evergreen platform for your projects , case studies and information about you.

### WEATHER INDICATOR: | *HTML , CSS , Javascript*

[Website link](#)

- Developed an indicator to detect the condition of the weather.
- And it will show the condition of the climate accurately by google Apis.
